### FREQUENCIES IN THE OVERSEAS TERRITORIES

Assignment of the 900 MHz band in Réunion: results of the principal auction and the process for assigning frequencies available up to 30 April 2025

Paris, 15 February 2024

The principal auction for the assignment of frequencies in the 900 MHz band in Réunion was held on 13 February 2024. This auction was for the 7 blocks of 5 MHz duplex frequencies that will become available on 1 May 2025. Arcep also assigned the 5 MHz duplex frequencies in the 900 MHz band that are available until 30 April 2025.

# Results of the principal auction for the assignment of frequencies in the 900 MHz band as of 1 May 2025

The quantities of 900 MHz band frequencies awarded through the principal auction in Réunion, provided the procedure is brought to completion, are as follows:

Candidate	Orange	Telco OI	SRR	Zeop Mobile
Quantity of frequencies in the 900 MHz band assigned as of 1 May 2025 at the outcome of the principal auction	10 MHz (paired)	10 MHz (paired)	10 MHz (paired)	5 MHz (paired)
Amount to be paid at the outcome of the principal auction	€7,989,707	€7,989,707	€7,989,707	€0

# Results of the stage for assigning 900 MHz band frequencies that are available up to 30 April 2025

At the end of the principal auction for the assignment of frequencies in the 900 MHz band that will become available on 1 May 2025, Zeop Mobile was the only candidate whose holdings in the 900 MHz band as of 5 December 2023 were less than a 5 MHz pair of duplex frequencies. The operator was therefore awarded the frequency resources available until 30 April 2025.

For this stage in the process, the results of the assignment of 900 MHz band frequencies that are available up to 30 April 2025 are as follows:

Candidate	Zeop Mobile	
Quantity of frequencies assigned up to 30 April 2025	5 MHz (paired)	

in LinkedIn Dailymotion

The next stages in the procedure will serve to determine the position of the frequencies available until 30 April 2025, that Zeop Mobile obtained in the 900 MHz band, and the position in the 900 MHz band of each of the principal auction's winning candidates, for those frequencies that will become available on 1 May 2025.
