

# ARCEP's Annual Report 2008

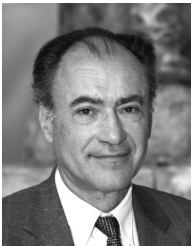

On 4 January 2009, Jean-Claude Mallet succeeded Paul Champsaur whose six-year term had come to an end.

Jean-Claude Mallet tendered his resignation on 29 April 2009 for strictly personal and health-related reasons.

On 8 May 2009, the President of the Republic appointed Jean-Ludovic Silicani as Mr. Mallet's successor, after receiving the approval of the competent parliamentary committees <sup>1</sup>.

*<sup>1</sup> - In accordance with Article L.130 of the postal and electronic communications code.*

Paul Champsaur,  
Chairman of ARCEP  
from 2003 to 2008.

Jean-Claude Mallet,  
Chairman of ARCEP  
January to May 2009.

Jean-Ludovic Silicani,  
Chairman of ARCEP  
since 8 May 2009.

# Introduction

3

# Highlights of 2008

29

## CHAPTER 1

### Main areas of focus in 2008

33

<b>A.</b>	<b>The digital dividend</b>	33
	1. Decisive matter for electronic communications	33
	2. Harmonisation of the 790-862 MHz sub-band for mobile services	34
	2.1 At the global level	34
	2.2 At the European level	34
	2.3 At the national level	35
	3. Allocation of digital dividend spectrum as a complement to 2.6 GHz frequencies is a major area of focus for 2009	35
<b>B.</b>	<b>3G spectrum allocation procedure</b>	35
	1. Background	35
	2. New developments in 2008	36
	3. An allocation procedure in two successive stages	36
<b>C.</b>	<b>Fibre rollouts</b>	37
	1. Access to France Telecom civil engineering infrastructure	37
	2. Sharing the last drop of optical fibre networks	38
	3. Local authority involvement	39
<b>D.</b>	<b>Mobile call termination</b>	39
	1. Background	39
	2. Gradual shift to incremental costs	40
	3. Development of a specific technical-economic model for overseas markets	41

<b>E.</b>	<b>The multi-year tariff framework of the universal postal service</b>	42
	1. The 2006 to 2008 price cap	42
	2. The multi-year framework for 2009 to 2011	43
<b>F.</b>	<b>Creation of a “consumer” committee</b>	43
	 <b>CHAPTER 2</b> <b>Changes to the European regulatory framework</b>	  45
<b>A.</b>	<b>The electronic communications sector</b>	45
	1. Commission proposals	46
	2. European Parliament positions	46
	3. European Council positions	47
	4. Second reading	48
<b>B.</b>	<b>The postal sector</b>	48
	1. The new Postal Directive set 2011 as the date for total market liberalisation	48
	2. The new European provisions	49
	2.1 On the universal service	49
	2.2 On competition	49
	2.3 On financing the universal service	49
	 <b>CHAPTER 3</b> <b>Main economic indicators for the market in 2008</b>	  51
<b>A.</b>	<b>Electronic communications markets</b>	51
<b>B.</b>	<b>The correspondence market</b>	52

## Introduction to ARCEP

<b>CHAPTER 1</b>	
<b>Missions</b>	57

<b>CHAPTER 2</b>	
<b>Organisation</b>	59

<b>A. The Executive Board</b>	59
<b>B. Organisation chart</b>	62

<b>CHAPTER 3</b>	
<b>Operation</b>	65

<b>A. ARCEP performance indicators</b>	65
1. Opinions and decisions	65
1.1 Opinions	65
1.2 Decisions	66
2. Licensed operators	66
2.1 Electronic communications operators	66
2.2 Postal operators	66
3. Disputes	68
3.1 Background	68
3.2 Decisions adopted in 2008	69
3.3 Analysis of the dispute resolution decisions adopted in 2008	69

4. Appealing an ARCEP decision	70
4.1 La Poste appeal	71
4.2 UFC-Que Choisir appeal	71
<b>B. The Authority's resources</b>	72
1. Budgetary resources	72
2. Human resources	73
3. Surveys and reports commissioned by ARCEP	74
4. Information system	76
5. Documentation	76
<b>C. ARCEP oversight bodies, relationships with public authorities and other independent administrative authorities</b>	76
1. Relationship with Parliament, the judicial system, public authorities and other public institutions	76
1.1 Parliamentary oversight	76
1.2 Judicial powers	78
1.3 Relationship with the French government	79
1.4 Relationship with other independent administrative authorities, and other institutions	80
<b>D. Consultation and transparency</b>	81
1. Informing interested parties	82
1.1 ARCEP websites	82
1.2 <i>La Lettre de l'Autorité</i>	84
1.3 <i>Les Entretiens de l'Autorité</i>	85
1.4 Dialogue with local authorities: CRIP	85
1.5 Consumer committee	86
2. Consultation with market players	87
2.1 Public consultations	87
2.2 Meetings and committees	88

# The postal sector

## CHAPTER 1

### The legal framework 95

#### A. The European framework 95

1. The new Postal Directive set 2011 as the date for total market liberalisation 95
2. The new European provisions 96
  - 2.1 On the universal service 96
  - 2.2 On competition 97
  - 2.3 On financing the universal service 97
3. European jurisprudence 98
  - 3.1 Recap on application of the Altmark jurisprudence criteria to compensation of the universal service operator 98
  - 3.2 Clarification of the rules for allocating postal markets 98

#### B. The national framework 99

1. Recap of the legislative framework 99
2. Regulator's missions 99
3. Texts adopted in 2008 100

## CHAPTER 2

### Postal markets 101

<b>A.</b>	<b>Overview of markets in 2007</b>	101
<b>B.</b>	<b>The market in items of correspondence</b>	104
	1. The French market for delivery of items of correspondence	104
	2. Correspondence-item exports in 2007	108
<b>C.</b>	<b>Other market segments</b>	110
	1. Parcels	110
	1.1 "Ordinary" parcels	110
	1.2 Express "light" parcels	111
	2. Delivery of press items to subscribers	111
	3. Unaddressed advertising	113
<b>D.</b>	<b>The mail preparation market, upstream of delivery</b>	113
	1. Market with over seven billion items	113
	2. Mail preparation – Addressed advertising	114
	3. Mail preparation – Transactional mail	114
<b>E.</b>	<b>Investments and employment</b>	114
	1. Investments	114
	2. Jobs	115

## CHAPTER 3

### Provision of the universal postal service 117

<b>A.</b>	<b>Developments in 2008</b>	117
	1. Specification of posting conditions for literature for the blind	117
	2. Launch of the "Mini Max" service for small items	119
	3. The quality of service targets set by the Ministerial Order of 22 July 2008	121
<b>B.</b>	<b>ARCEP's action on quality of the universal postal service</b>	122
	1. Transparency of universal service quality: latest performance-indicator developments	122
	2. Measuring quality of service for universal-service parcels and for complaints	125
	2.1 Study context and objectives	125
	2.2 Findings on the reliability of quality of service measurements for Colissimo products	126
	2.3 Results of the study on the reliability of complaint measurement	126

<b>C.</b>	<b>Universal service monitoring system defined by ARCEP</b>	127
	1. Monitoring of universal service obligations introduced by ARCEP	127
	2. Special system to be put in place so that ARCEP can ensure compliance with quality of service targets	128
	<b>CHAPTER 4</b>	
	<b>Financing of the universal postal service</b>	129
<b>A.</b>	<b>Postal tariffs</b>	129
	1. The price cap in effect for 2006 to 2008	129
	2. Review of application three years on	130
	3. The price cap for 2009 to 2011	130
<b>B.</b>	<b>Prospective studies</b>	131
	1. The “net avoided cost” method	131
	1.1 A method based on differential analysis	131
	1.2 Implementation of this method	132
	2. The study conducted in Denmark	132
	2.1 Findings	132
	2.2 Study data	133
	<b>CHAPTER 5</b>	
	<b>Preparations for market liberalisation</b>	
	<b>1 January 2011</b>	135
<b>A.</b>	<b>International business intelligence</b>	135
<b>B.</b>	<b>The situation in France</b>	138
	1. Authorisation requests tailing off	138
	2. Work on public markets	138
	3. Relations between authorised operators and La Poste	139
	4. Taking account of consumer interests	140

# 4

## Part

# Electronic communications

145

## CHAPTER 1

### Legal framework 147

#### A. National framework 147

- 1. Background 147
- 2. Provisions adopted in 2008 148
  - 2.1 The “Chatel Act” 148
  - 2.2 Law on modernising the economy (LME) 149
- 3. Regulatory provisions adopted in 2008 and 2009 153
  - 3.1 Routing calls to “112” 154
  - 3.2 Regional coverage 154
  - 3.3 Optical fibre 155
- 4. Order concerning fees 156

#### B. Review of the European framework 156

- 1. Commission proposals 156
- 2. Work of the European Parliament 157
- 3. Work of the European Council 158
- 4. Second reading 159

#### C. European harmonisation 159

- 1. Work performed by the European Commission on international roaming 159
- 2. Work of the European Regulators Group and the Independent Regulators Group (ERG-IRG) 161
  - 2.1 ERG publications in 2008 162
  - 2.2 Common positions 163

3. Work performed by other European bodies	163
3.1 COCOM	163
3.2 The Radiospectrum Committee (RSCoM)	165
3.3 The Radio Spectrum Policy Group (RSPG)	165
4. Principal decisions made by national regulatory authorities in the European Union	166
4.1 The “Relevant markets” Recommendation of November 2007	166
4.2 Summary of market analyses performed in 2008	168
4.3 Geographic markets	168
4.4 Call termination	173

## CHAPTER 2

### Electronic communications markets 177

<b>A. Market figures and status</b>	177
1. End-user market	177
1.1 The electronic communications market	177
1.2 Average customer consumption	183
2. Employment and investment	184
3. Intermediate market: interconnection and wholesale services	186
3.1 Revenue and volume	186
3.2 Fixed operator interconnection and access services	187
3.3 Unbundling	188
3.4 Mobile interconnection	189
<b>B. The different market segments</b>	190
1. Fixed telephony	190
1.1 Access	191
1.2 Calls	196
1.3 Average consumption	200
1.4 Public payphones and prepaid cards	204
2. Internet	205
2.1 The Internet market	205
2.2 Broadband access	208
3. Mobile	209
3.1 Mobile market	209
3.2 Revenue by service	213
3.3 Segmentation by type of customer	217
3.4 Average consumption	218

4. Value-added services	222
4.1 Value-added services (excluding directory assistance)	222
4.2 Directory assistance services	223
5. Capacity services: leased lines and data transport	224
6. Other services	225
6.1 Hosting and call centre management services	225
6.2 Terminals and equipment	225
<b>C. Consumption and usage in France</b>	226
1. Household equipment	226
1.1 Fixed telephony equipment levels on the rise	226
1.2 A computer in 65% of French households	228
1.3 More than half of all households connected to the Internet	229
2. Individual equipment	230
2.1 Fixed and mobile telephone equipment levels back on the rise	230
2.2 Residential Internet access levels increasing significantly once again	233
2.3 Means of accessing television evolving rapidly	234
<b>D. European benchmarks</b>	236
1. Elements of comparison by electronic communication service	236
1.1 Broadband	236
1.2 Mobile telephony	237
1.3 IPTV	238
2. Tariff benchmarks	238
2.1 Subscriptions	238
2.2 Mobile calls	240
 <b>CHAPTER 3</b>	
<b>Regional development</b>	245
<b>A. State of national coverage</b>	245
1. Mobile telephony	246
1.1 Completing nationwide 2G (GSM) coverage	246
1.2 Enabling 3G (high-speed mobile) rollouts	248
2. High-speed access: the regional digital development challenge	250
2.1 Public-initiative networks (RIP) devoted to covering dead zones	251
2.2 Available technologies	252
2.3 Importance of collection networks	254
2.4 Increased service speeds in the regions	255

<b>B.</b>	<b>Local authority actions</b>	255
1.	ARCEP performed an assessment of local authorities actions for Parliament and the government	256
1.1	Impact of public-initiative networks	257
1.2	Competition and coverage go hand in hand	257
1.3	Public initiatives have a gearing effect on private investment	257
1.4	A flexible and balanced legal framework	257
1.5	Increased capability of local authorities	258
1.6	Local authority involvement helping to increase service speeds	258
2.	Work performed in concert with local authorities within the public-initiative networks committee, CRIP	259
2.1	Covering broadband dead zones	259
2.2	Ultra high-speed networks (FTTH)	260
2.3	Sharing civil engineering infrastructure for cable networks	261

## CHAPTER 4

	<b>Regulation of electronic communications market competition</b>	263
--	---	-----

<b>A.</b>	<b>Market analysis in France in 2008</b>	263
1.	The new market analysis cycles	265
1.1	Broadband and ultra-fast broadband	265
1.2	Mobile call termination	266
1.3	Fixed telephony	268
<b>B.</b>	<b>Broadband markets</b>	269
1.	The retail market	269
1.1	Sector consolidation	270
1.2	Success of bundled offers	270
2.	Regulation of broadband wholesale markets	272
2.1	Wholesale broadband offers	272
2.2	Local loop unbundling	273
2.3	Bitstream offers, delivered at the sub-national level	273
2.4	Status of wholesale offers	274
2.5	Guiding principles of broadband regulation	275
3.	Unbundling	278
3.1	Operational and technical regulation of wholesale broadband offers	278
3.2	Pricing changes	279

<b>C.</b>	<b>Ultra-fast broadband</b>	281
	1. Access to ducts	281
	2. Infrastructure sharing	282
<b>D.</b>	<b>Mobiles</b>	284
	1. Regulation of wholesale mobile voice call termination markets	284
	1.1 Mobile voice call termination regulation in Metropolitan France	284
	1.2 Mobile voice call termination regulation in the overseas markets	288
	2. SMS call termination	290
	2.1 SMS call termination market analysis	290
	2.2 Regulatory cost accounting	291
	2.3 Outlook	291
	3. The market for access and call origination on mobile networks and mobile virtual network operators (MVNO)	292
	3.1 Shrinking MVNO market	292
	3.2 ARCEP opinion to the competition authority concerning competition issues surrounding the terms of hosting MVNOs	292
<b>E.</b>	<b>Fixed telephony</b>	293
	1. Wholesale markets	293
	1.1 Interconnection and access market regulation concentrated on bottlenecks	294
	1.2 Regulation and tariff supervision for bottlenecks essential to the development of competition	294
	1.3 Implementation of multi-annual tariff supervision for call termination helped achieve several key objectives	294
	1.4 The transit market is no longer relevant for <i>ex ante</i> regulation	295
	2. Relaxing retail market regulation	296
	2.1 The first cycle of market analysis began a process of relaxing retail market regulation	296
	2.2 Deregulation of retail fixed telephony markets	296
<b>F.</b>	<b>Other market analyses</b>	297
	1. Capacity services	297
	1.1 New cycle of market analysis	297
	1.2 Operational implementation of regulation	298
	1.3 Changes to tariffs	298
	2. Wholesale market for audiovisual broadcasting services	298
	2.1 Reminder of the regulatory framework to emerge from the first cycle of market analysis	298

	2.2 Implementation of TDF cost accounting and accounting separation obligations	299
	2.3 Timetable for the second cycle of market analysis	300
<b>G.</b>	<b>France Telecom accounting separation</b>	300
	1. Reminder of the economic and regulatory founding principles of accounting separation	300
	1.1 Electronic communications market structure	300
	1.2 Preventing discrimination and abusive cross-subsidies	301
	1.3 Mechanism provided for by the regulatory framework	301
	1.4 Simulation of several distinct entities from an accounting perspective	302
	2. Concrete application of accounting separation	302
	2.1 Internal sales agreements	302
	2.2 Separate market accounts	303
	3. Results of the accounting separation exercises for 2007	303
	3.1 Internal sales agreements	303
	3.2 Separated accounts, by market	304
	4. Audit of France Telecom accounting obligations	306
	4.1 Principal results of the audit of France Telecom's cost accounting system	306
	4.2 AFORS Telecom's request for a penalty to be levied on France Telecom	308
	5. Towards a possible review of Decision no. 06-1007	308
	<b>CHAPTER 5</b>	
	<b>Scarce resource regulation</b>	309
<b>A.</b>	<b>Spectrum management</b>	310
	1. Spectrum management at the national, European and international level	310
	2. Developing mobile broadband for all: 3G	312
	2.1 The fourth 3G licence and the 2.1 GHz frequency band	312
	2.2 Reuse of 900 MHz band for 3G	314
	2.3 A portion of the digital dividend allocated to electronic communications	315
	2.4 The transition to ultra high-speed mobile (800 MHz and 2.6 GHz)	316
	3. Wireless local loop/WiMAX	318
	3.1 Reminder of operator obligations	318
	3.2 Spectrum trading in 2008	319
	3.3 Monitoring WiMAX operators	323
	4. Mobile satellite services	324

	5. Frequency assignments and allotments	324
	5.1 Fixed terrestrial and satellite systems	324
	5.2 Professional mobile radio networks (PMR)	325
	6. Frequency register	325
<b>B.</b>	<b>Numbering</b>	326
	1. ARCEP's missions	327
	2. The situation in 2008	328
	3. Measures taken in 2008	329
	3.1 Opening up the 09 block for VoIP and IP boxes	329
	3.2 Opening up the 07 block for mobiles	329
	 <b>CHAPTER 6</b>	
	<b>Consumers</b>	331
<b>A.</b>	<b>Taking consumer interests into account</b>	331
	1. ARCEP actions	333
	1.1 Assisting consumers on a daily basis	333
	1.2 Consumer committee	334
	1.3 Launch of a dedicated website	335
	2. ARCEP actions undertaken as part of its regulatory mandate	335
	2.1 Retail prices	335
	2.2 Quality of service	336
	2.3 Number portability	337
	2.4 Universal service obligations	337
	3. Actions in support of disabled persons	338
	3.1 ARCEP website accessible to the visually impaired	341
	3.2 Decree on emergency calls from people with hearing impairments	341
<b>B.</b>	<b>Monitoring quality of service</b>	341
	1. Mobile telephony	341
	2. Fixed telephony	342
	3. Broadband	344
	4. Directory assistance services (118)	345
	5. Quality of the service provided by the universal service provider	347
<b>C.</b>	<b>European Commission actions concerning international roaming</b>	348
	1. Assessment of Eurotariffs for voice calls	349
	2. A shift to Eurotariffs for data exchange?	350

<b>D.</b>	<b>Number portability</b>	352
	1. Mobile number portability (MNP)	352
	1.1 In Metropolitan France	352
	1.2 In overseas markets	354
	2. Fixed number portability	355
	2.1 Number retention is a subscriber's right	356
	2.2 Initiatives launched with operators to improve the fixed number portability processes	356
<b>E.</b>	<b>Universal service</b>	359
	1. Universal service and the universal service operator	359
	1.1 Universal service components	359
	1.2 Designation of the universal service operator(s)	360
	1.3 Universal service operator obligations	361
	1.4 Social tariffs and "pay or play"	361
	1.5 Financing the universal service	363
	2. ARCEP's role	364
	2.1 Determining the cost of universal service	364
	2.2 Determining the net cost of providing the universal service for 2007	366
	3. Regulatory changes in 2008	368
	3.1 The law introduces greater flexibility in the designation of the universal service provider	368
	3.2 Decree specifying the changes brought to the CPCE	368
	4. Pending disputes	369
	5. Control of universal service tariffs in 2008	369
	5.1 Introduction of a multi-year control mechanism	369
	5.2 The purpose of multi-year tariff controls	370
	6. The social tariff: a necessary development	370
	6.1 Assessment	370
	6.2 Outlook	373
	7. Provisional universal service calendar for 2009	373
<b>F.</b>	<b>Universal directory</b>	374
	1. Legislative and regulatory framework	374
	2. Subscriber rights	375
	3. Operator obligations	376
	4. Access to universal directory data	376
<b>G.</b>	<b>Value-added services</b>	378
	1. The value-added services market	378
	2. Measures taken by ARCEP	378
	3. Consultation and joint regulation	379

## CHAPTER 7

### Telecommunications in the overseas territories 381

<b>A.</b>	<b>Market round-up</b>	381
	1. Broadband	381
	1.1 Broadband retail markets: situation coming more in line with mainland France	381
	1.2 Regulation focused on the wholesale market	384
	2. Mobile markets	385
	2.1 Mobile operators market share in the overseas <i>départements</i>	385
	2.2 Consumption trends	386
	3. Fixed markets	386
<b>B.</b>	<b>GSM licence renewal in the overseas territories</b>	386
<b>C.</b>	<b>3G in overseas markets</b>	387
<b>D.</b>	<b>Decrease in mobile call termination tariffs in overseas départements</b>	388
<b>E.</b>	<b>Overseas market access to the global network: undersea cables</b>	389
	1. Regulation of the capacity services market and of undersea cable	389
	2. ARCEP actions	390
	3. Decrease in wholesale tariffs in Reunion	391

## CHAPTER 8

### ARCEP's international responsibilities 395

<b>A.</b>	<b>International Telecommunication Union (ITU)</b>	395
	1. ITU-T	396
	2. ITU-R	397
	3. ITU-D	397
<b>B.</b>	<b>Organisation for Economic Cooperation and Development (OECD)</b>	397
<b>C.</b>	<b>Cooperation with Francophone countries: Fratel</b>	398
	1. Fratel network annual meeting in Tunis	398
	2. Information and experience exchange seminar in Libreville	398
	3. BADGE training	399
<b>D.</b>	<b>Study missions</b>	399

	<b>Glossary</b>	401
--	-----------------	-----
